

**HÜSLER**  
THE SWISS TEXTILE SOLUTION

# HÜSLER'S HIGH-V2

certified according to EN ISO 20471:  
Be seen. Be safe.

---

## AN ABSOLUTE ESSENTIAL FOR COLD DAYS.

The High V2 softshell jacket will keep you safe and warm, without restricting you unnecessarily. Premium materials provide perfect functionality precisely when it's needed. These interconnected materials are designed to protect you, having been combined with active technologies and abrasion-proof materials. For the right balance between protection, breathability and freedom of movement.

## CERTIFIED ACCORDING TO EN ISO 20471

They protect you. They have to work, typically being worn for more than 40 hours a week. The layering principle ensures that air warmed by your body can circulate freely between garments, protecting the workman from the freezing cold.

# SOFTSHELL JACKET

## FEATURE HIGHLIGHTS

1. Italian fabric certified according to EN ISO 20471
2. elasticated cuffs for superior wearing comfort
3. full length zip for individual protection
4. chin protector
5. right-hand breast pocket
6. two reflective strips for greater visibility in twilight conditions
7. coloured under arm inserts
8. two capacious front cargo pockets
9. space for your logo
10. windproof
11. bright outer material for daylight protection
12. preformed sleeves for greater freedom of movement
13. suitable for industrial laundry
14. achieves protection class 2

## SAFE IN THE DARK.

A classic insulating layer with zip that regulates moisture and dries quickly. Comfortable stretchable fleece jacket suitable for activities where visibility means safety.

## ULTIMATE PROTECTION. ULTIMATE COMFORT.

The High-V2 trousers are stretchable, breathable and quick-drying. They boast a comprehensive range of technical features. The Schoeller® fabric in the seat area ensures extra flexibility and a perfect fit.

# RUGGED & STRONG

## CERTIFIED ACCORDING TO EN ISO 20471

The Schoeller® Coldblack finish reduces the absorption of the sun's rays while at the same time affording reliable protection against harmful UV radiation.

The Schoeller® energear finish returns the body's own far infrared rays to the body. With a potentially beneficial effect on the energy balance.

## FEATURE HIGHLIGHTS

1. rugged colour fast outer material from Italy
2. two front pockets
3. suitable for industrial laundry
4. elasticated braces for a high level of comfort
5. extra leg length for long legs. Shortening always possible
6. closable thigh pocket with integral mobile phone pocket and side zip compartment
7. reinforced knee for a durable product
8. reflective strips for greater visibility in twilight conditions
9. preformed trouser legs for greater freedom of movement
10. zip pocket on dungaree front with patch pocket and pen holders
11. elasticated seat area for superior wear comfort
12. Cold Black Technology: black is not heated by the sun's rays
13. Schoeller Energear technology
14. three right-hand leg pockets of different sizes for flexible cargo capacity
15. button fastening at the side for ease of putting on
16. two closable back pockets with zip pull

## STAND OUT IN THE DARK.

Developed for the street, the new High-V2 trouser combines unparalleled performance and first-class technology with untamed strength. It has been well thought out to the very last centimetre. Logically situated pockets for ample cargo capacity: enabling you to dominate any street at any time of day.

## DOMINATES THE STREET - AT ANY TIME OF DAY

The more stressful the day, the more important it is to wear the right clothing. Hüsler's layering principle ensures that air warmed by your body can circulate freely between garments, protecting the workman from the freezing cold. While at the same time ensuring visibility in daylight and darkness in any situation.

## CERTIFIED ACCORDING TO EN ISO 20471
