

HÜSLER

THE SWISS
TEXTILE SOLUTION

WE DRESS FOR WORK

We design, develop and produce unique clothing solutions for your team.
Everything from a single source.

"We design, develop and produce work clothing with function and comfort, allowing you to master the most challenging tasks. Our Swiss roots have formed our high quality standard, innovation and durability: our name has stood for this for over 15 years."

Kurt Hüsler

STRONG ROOTS

We're always delighted when large companies find their way to the small town of Sirnach. We've been developing high-tech work clothing there for over 15 years. In doing so, the Hinterthurgau region has become more than just a location. It forms a strong base to keep our feet firmly on the ground.

STRONG PARTNERSHIP

Speed takes top priority with us. But not when customer relations are involved. We think long-term in this respect. With more than 5500 satisfied customers over the past 15 years, we can enjoy renewed confidence – year in, year out.

MADE IN EUROPE ENGINEERED IN SWITZERLAND

We build on Europe. We entrust European manufacturing expertise to ensure quality. Shorter routes, simple communication and error-free order handling save costs. This is how we achieve the required results in the shortest time.

ECOLOGY AND EFFICIENCY

Our work clothing travels less than 2300 kilometres to reach you. That not only leaves a smaller carbon footprint, but also a smile on our customers' faces – because short routes also entail faster order handling.

Highest quality for the best price. In our sewing workshop in Slovakia, over 200 highly trained and specially employed staff produce high-functionality materials for innovative work clothing. No long order times, short transport routes, simple communication. Meaning: Made in Europe – Engineered in Switzerland.

HIGHEST QUALITY

More than 40 hours a week, 254 working days a year – professional clothing is no stranger to hard work – day in, day out. To make sure our products have what it takes to last a long time, we work exclusively with materials of the highest quality from Europe, zips made by YKK and sewing threads from Coats. We don't compromise when it comes to quality.

DESIGN AND DEVELOPMENT

We work with six “Lectra” CAD stations equipped with state-of-the-art software. That allows us to compile new creations, sectional views and customised size sets for bespoke tailoring. This not only makes us attractive in terms of price but also enables us to implement your concepts rapidly and precisely.

The materials are placed on the table with fully automatic positioning machines and then cut to size. The cut parts are compared point for point based on the quality specifications – the order only enters production after definitive approval and release.

The implementation of innovative concepts and state-of-the-art technologies in development, in conjunction with the latest production and logistics processes, are our strengths.

OWN PRODUCTION

The working conditions in our own production facilities in Slovakia are in perfect harmony with national and international social standards. This includes regulated working hours and a fixed employment contract. Our employees are trained and instructed both internally and externally.

Our production facilities are equipped with state-of-the-art machines. We regard it as very important to keep our machinery continually up-to-date, so that our trained sewing staff can maintain the required quality standards. Every work step is subject to our quality assurance in production. Likewise, all work processes are monitored permanently by our internal inspection body so as to be able to ensure our high standard.

Our in-house finishing workshops are audited regularly by FLO-CERT in accordance with ETI Base Code. Partner to the Max Havelaar Foundation (Switzerland).

EMBROIDERY AND TRANSFER

Your products can be personalised with your company logo. Besides the recognition factor, image clothing also gives your employees a greater feeling of belonging together. We can help you to choose your colour scheme and position your logo and advertising in just the right place via printing or embroidery.

THE SWISS TEXTILE SOLUTION

SEWING STUDIO SIRNACH

Does the zip on your favourite jacket no longer fasten? Do you have an item of clothing that is too large and needs to be taken in? Are the trousers you bought too long? Do your employees need a special size? In our in-house sewing studio, we are perfectly equipped for special fabrications, changes or repairs. We live by the motto: Don't throw away, repair.

MANAGEMENT AND LOGISTICS

Leave the management and scheduling of your staff clothing to us.

SALES PARTNERS

As an effective supplement to our own collections, we foster partnerships with external brands specially chosen by us.

B2B E-COMMERCE SOLUTIONS

Placing online orders quickly and outside working hours, searching for products, viewing inventory status, calling articles from own customer stock, order automation and much more.
